

Full Stack Development – Day 9 Summary

Today covered Topic:

➤ Hollow Pattern Printing Using Nested for loop:

Hollow Pattern is used for only the outer border printing and the inner part are empty using nested loops.

```
*****
*      *
*      *
*****
```

Example:

```
public class HollowPattern {
    public static void main(String[] args) {

        for(int i = 1; i <= 5; i++) {
            for(int j = 1; j <= 5; j++) {

                if(i == 1 || i == 5 || j == 1 || j == 5) {
                    System.out.print("* ");
                } else {
                    System.out.print(" ");
                }
            }
            System.out.println();
        }
    }
}
```
